

AUSTRIA WILL REJECT OFFER

Will Not Be Taken Over by an Allied Commission.

COUNTRY PREFERS ITS INDEPENDENCE

Statement of President of Austrian Republic.

The President Declares Austria Saves Europe from Bolshevism and It Still Safe—Has Some Mighty Problems.

(By DOROTHY THOMPSON.)

Copyright, 1921, by the J. N. S. I. Vienna, Feb. 23.—[Through London, Feb. 23.]—The allied proposal for Austria to be taken over by the allied reparations commission and administered virtually as a dependency, is being rejected by the Austrian government. It was forecast by Michael Bannick, president of the Austrian republic, in an exclusive interview with the International News Service. President Bannick probably faces more acute problems than any other government head in Europe, but he is hopeful for the future.

"Austria saved Europe from Bolshevism once and she is still safe, unless she suffers a new disillusionment," declared the executive.

"Austria needs what all other states need—an economic union and cooperation of all Europe and the world. Austria's conditions form an example of what Europe must continue to face if Europe continues to be dominated by a spirit of fear. Hand in hand with that great spirit, walks death."

"Communism will not conquer Austria while the people see a ray of hope. While Budapest and Munich had serious Vienna, lying between the two, broke Bolshevism and stopped the fire which was threatening all Europe."

"Beni Kuan, the Communist dictator of Austria, spent more than 100,000,000 kronen when the krona was worth much more than it is today."

"The patience of the Viennese has been monumental. Even in their present condition, they cherish culture more than ever. There is more music in Vienna today than in all history. Civilization may count on Austria so long as she loves beauty more than bread."

"I am not afraid of Moscow's money, which is being spent lavishly in Austria and Vienna. I fear only disillusionment and despair. When the last hope goes, none can predict what will happen."

"The depression which has settled upon Austria since the interallied conference in Paris, at the end of January, is the worst for many months. The world must realize that the form which help to Austria takes is not important, so long as it comes quickly and in sufficient quantity."

"We expect the forthcoming conference at Paris, between financiers and bankers, to develop an international syndicate which will give large assistance to Austria's private industries. We must not have a new disillusionment. The economic regeneration in Austria is possible. The population is stable and well organized and eager for work. None need fear for money invested here."

"Only to the extension of credits for the revival of industry and cooperation is there hope for the future. People want an alliance with Germany and think that once it is accomplished, they will be happy and content, but they overrate the value of Austria. Such an alliance, I think, would be as though one man took a poorer one under his wing."

"I look for an alliance of nations whose economic and cultural interests are so greatly united that they will never come until Austria is free to begin again."

"Austria will not hand her government over to the allied reparations commission. Such a course would be fatal at this time."

ACCEPTANCE NOT DEFINITE

Hoover Not Sure of a Place in Cabinet.

WANTS FREE HAND IN HIS DEPARTMENT

Submits Certain Proposals to President-Elect Harding and Waits for Reply.

New York, Feb. 24.—Confirming the story carried yesterday by the International News Service, that he would accept the secretaryship of commerce in President-Elect Harding's cabinet, Herbert Hoover, today announced his acceptance of the post is not definite, but depends upon being given a free hand in making the department of commerce, a larger and more important factor in the government and upon being allowed to direct relief work for starving European children.

Hoover said he had submitted to President-Elect Harding certain proposals for reorganizing the department of commerce, which he termed at present as but a "group of bureaus of a scientific character, not directly connected with our commerce." He said American prosperity during the next four or five years depends largely upon our foreign trade and that there were vast opportunities for establishing a government department that would render a great service to American trade. He said he desired more definite assurances from President-Elect Harding that he would have free scope in handling the commerce department.

Hoover assured newspaper men that his proposals to President-Elect Harding were not of the "take-or-leave" character.

Hoover pointed out that he had accepted a commission from a large body of American people to direct relief work for the starving children of central Europe, numbering some 5,000,000 and that he did not believe it propitious to abandon that work. Hoover indicated that the matter now was clearly up to President-Elect Harding to say whether he wished to renew, or withdraw, the invitation to join the cabinet.

Asked point-blank whether he would accept the appointment, Hoover replied:

"I have explained my position. I believe that any formal announcement should come from Senator Harding, himself, in the event I do accept the appointment."

Hoover intimated he believed the president-elect would not be averse to permitting him to continue necessary European relief work.

Hoover said he had discussed informally his ideas for reorganization of the department of commerce with Senator Harding and intimated the latter's views were similar to his own.

TURKS MAKE A DEMAND TODAY

Want Frontier of Turkey as It Was in 1913.

PART OF TREATY OF SEVRES REJECTED

Treaty Partitions Much of Old Turkish Empire.

Turks Also Demand That Allies Allow Them an Adequate Army and Navy—Some Other Claims of Turks.

London, Feb. 24.—The Turkish delegates attending the Near-East conference, today, demanded that the frontier of Turkey in Europe be reestablished as it existed in 1913, after the Balkan war. The Turks rejected the principal clauses of the treaty of Sevres, which partitioned a great part of the old Turkish empire among the allies.

As to the southern frontier, the Turks said they were willing to have that settled upon the basis of nationality, the Turks retaining the territory where the population was predominantly Turkish.

The other demands of the Turks included:

1.—Abolition of the international court set up at Constantinople and which has existed there for centuries.

2.—Restoration of complete economic and commercial independence of Turkey.

3.—Guarantees that Turkey may maintain an adequate army and navy.

4.—Reciprocal assessment of war damage by civilians.

5.—Any areas that were severed from Turkey should bear their share of the war debts.

If the Turkish demands were met, they would deprive the Greeks of great areas of Turkish territory allotted through the keen and diplomatic efforts of former Premier Venizelos.

Demands Made.

London, Feb. 24.—The Turkish delegations to the Near Eastern conference here, demanded the return of Thrace and Smyrna to Turkey and also the liberty at the straits and the financial and military control of Constantinople. They insisted on the rights of minorities under the mandates of the powers in certain parts of the former Turkish provinces.

Premier Lloyd George said it would be necessary to go beyond mere statements of general principles, and that the allies required specific details of the proposals for examination.

When the British prime minister made this request Dekir Samy Bey interposed, making a longer, more detailed statement, but Lloyd George still was not satisfied and asked that the proposals be put in writing. The Nationalist delegate agreed to this, but before the conference adjourned he again insisted that his delegation alone was authorized to present Turkey. Lloyd George replied that it was not the business of the conference to decide between the two delegations and that it would have to hear them both.

ABANDON HOPE AND SEAL MINE

Seven Men Left to Fate in Burning Gallery.

WORKERS CUT OFF FROM ALL ESCAPE

Mine Seals Will Remain Thirty Days To Prevent Spread of Flames.

Du Quoin, Ill., Feb. 24.—All hope for the lives of seven men imprisoned in the Kathleen mine of the Union Collieries company, at Du Quoin, Illinois, was given up this morning, when mine rescue squads sealed up a gallery in which fire has been raging since last night.

The seven men, working in the gallery, according to officials of the company, were cut off by the flames. The gallery will not be unsealed for about thirty days, it was said, when an attempt will be made to find the bodies. The sealing process was used to check the flames from spreading to other sections of the mine, only after all hope for the men had been abandoned.

The dead were: Sam Colgan; Henry Warren and George Early. The body of Early has not been found.

BIG WHEAT POOL FORMED TODAY

Product of Farmers in Wheat Belt States.

POOL TO DISPOSE OF 50,000,000 BUSHELS

Part of the Crop of 1921 in Kansas.

Each Member of Wheat Growers' Association is Bound To Deliver One-Half of Crop to Pool, Organizers Say.

Hutchinson, Kas., Feb. 24.—A gigantic wheat pool, the first of a series to be organized in wheat belt states in a farmers' war for "living" prices, was formed here today, by the Kansas branch of the National Wheat Growers' association. The pool will dispose of 50,000,000 bushels of wheat of the 1921 crop in Kansas.

The executive committee of the association, today, adopted final plans, including the naming of A. C. Bailey, of Kistler, Kansas, as managing director of the pool. The purpose, the committee announced, was to stabilize wheat prices during this pooling season.

Every member of the wheat growers' association is bound by the committee's action. It was announced to turn over one-half of his 1921 crop to the pool. The pool is the first attempt at community marketing in the Kansas belt.

"We are going to stabilize the wheat market so farmers can get a fair price for their crop," said W. H. McGroovy, president of the association. "We believe this action will stabilize the 1921 market."

An Announcement.

New York, Feb. 24.—Plans for a nation-wide wheat pool of the more than 100,000 members of the National Wheat Growers' association, of Wichita, Kansas, were announced here today, by J. F. The association announced that it had retained Aaron Sapro, specialist in farm marketing, who also prepared the plans for the cotton and tobacco growers of the South and many other farmers' organizations on the Pacific coast. The organization will be a non-profit, non-capital stock, cooperative association, which will sell wheat for growers through a central office in Chicago.

ENGLAND ASKED TO CANCEL DEBT

ITALY EXPRESSES A VIEW ON WAR DEBTS

Also Wants Greater Share of German Indemnity.

Country Finds Herself as Purchaser of German Goods at a Disadvantage Under Recent Decision at Paris.

London, Feb. 24.—Great Britain is called upon to "set an example" to the world, by cancelling the war debts owed to her by Italy and France, in a note addressed to the allies by the Italian government, it was learned this afternoon. The specific demand in the note was that Italy's share of German indemnity be increased from ten per cent, to from twenty to twenty-three per cent.

Italy protests that she would suffer proportionately by the enforcement of the Paris decision to collect a twenty-per-cent, tax upon German exports. This protest is based upon the fact that Italy is a large importer of German goods and that the Germans might be expected to increase the price of her exported merchandise to meet the "ad valorem" tax. Italy makes it plain that she favors the cancellation of allied war debts by the United States, notwithstanding the fact that her share of indemnity would be influenced by such action.

For example, if the United States should cancel the huge amounts owing to her by the allies, it would naturally aid the financial situation to such an extent that the allied powers would not need such a large amount of reparations from Germany.

The Italian note promises to get complications in the way of the allied statesmen when they assemble here, about March 4, to hear the German counter-proposal. Italy's attitude, it is said by officials, may hearten the Germans to make strong protests, upon the assumption that the allies are not united.

HE DEPENDS ON EUROPE TO BUY SURPLUS GRAIN

That's Fix of American Farmer, Institute Speaker Says.

MORRAL INSTITUTE HAS TALK BY L. A. BRECKLER

Woman State Speaker Pleads for Farmer "To Loosen Up" to His Wife.

Morral, O., Feb. 24.—[Special.]—The afternoon session of the Farmers' Institute at Morral, Wednesday, opened with a piano solo by Miss Ruth Ella McIntire, L. A. Breckler, of Delaware, a state speaker, spoke on "The Growing of Legumes."

Mr. Breckler said the farmer has to depend on Europe to buy the surplus grain. The marketing question is the most serious one confronting the farmer today, but at the same time it is up to the farmer to keep on producing, he said. He spoke of drainage as necessary to produce good crops and said that lime should be used for sweet clover. He also said the analysis of sweet clover and alfalfa are the same and that the soy bean is the coming crop.

After a vocal solo, "A Little Bit of Love," by Rev. R. E. Brown, accompanied on the piano by Mrs. Ralph Miller, a talk on "Problems of the Housewife" was given by Mrs. Ida Durbin, a state speaker.

As Sands of the Sea.

Mrs. Durbin said the problems of the housewife are as numerous as the sands of the sea and said that if the average farm woman had a speedometer attached to her feet she would travel farther in a day than any Ford. She told the girls to learn all they possibly can about domestic science.

Mrs. Durbin said she would rather rake hay all day with an old-fashioned hay rake than to stand over a wash tub. She said one of the big problems is the lack of conveniences in the farm kitchen and another is the women having to ask the men for money. She closed by asking the men to give the women a square deal.

V. S. Smith, of Marion, showed a reel of motion pictures on educational training showing "Testing Seed Corn."

Wednesday Evening.
The evening session was opened by J. S. Grady's Sunday-school class of the M. E. church singing "Skye Bird Song." After a song by Master Russell McIntire "Jesus Bids Us Shine," Mr. Breckler gave an address on "The Dreamer." He said the dreamer is a fellow who is constantly looking forward. The things worth while are not the work of practical men, but the work of dreamers. The farmer's life is the most wonderful life of all. The speaker closed by saying a great many people never see anything any broader than their own home.

The session was brought to a close with a fancy drill by high school girls.

Session This Morning.
The morning session today opened with community singing and the invocation by Rev. L. V. Rite, pastor of Trinity Baptist church, of Grand Prairie township.

A. F. High, of New Washington, gave a talk on "Mutton and Wool Production." This, he said was an unpopular subject, but declared that a change was coming in the matter of wool production. Good feeding was essential, Mr. High said, and advised the feeding of an ensilage of clover and a little fodder.

Following a vocal solo, "Looking to You," by Rev. R. E. Brown, Mrs. Darine Washburn gave a talk on "Poultry Raising." She gave an interesting account of the blunders made by the amateur poultry raiser. L. A. Breckler, a state speaker, gave a talk on "Side Line Work for Farmers." The only way to progress he said was by trying things out, and declared that the poultry crop was one of the best side lines for the farmer. Other lines which would prove profitable were berries and bees. The speaker strongly advised the raising of turkeys as he said they keep the grasshoppers down. The Institute will close late this afternoon with the election of officers.

On their pleas of guilty they were each fined five dollars. Jones did not take part in the fight and he was released.

Dry Cleaning Kills Disease Germs

No Germ can live in a Garment, Drapery or anything that can be Dry Cleaned by the Model Process.

Dry Cleaning consists of four Operations, viz: Cleaning, Drying, Steaming and Pressing. The Dry Cleaning Liquids used, while they will not injure the finest Fabrics made, will kill all Germs instantly.

The Steaming Process is the spraying of live steam through the article being cleaned. No Germ can live in live Steam.

The Drying Process is Heat intensively applied and is sure death to Germs.

The Pressing Process, on account of the intensive heat, will also prove fatal to Germs. Let us make everything cleanable safe for yourself and family.

FORMER CARDINGTON MAN WINNER OF BET Walks Half Mile in Columbus in Four Minutes.

Eddie VanHorn, born and raised at Cardington, kindly and clever and a fine barber, has lately come to the front in his new Columbus home by marrying a fine wife and only the other day added a new mark to his modest fame in a straight away walk. This is the way the Columbus Dispatch tells about it:

Pedestrians around the statehouse square were startled Tuesday morning at seeing a tall, long-legged young man with flying coat-tails walking at top speed. He looked very much as if he were late at a wedding or someone had told him where he could get a drink or that a ham raffle was being held at a corner grocery. But, no he was a fast walker out to capture a bet. He was Edward Van Horn, the former champion walker of Cardington, 10 lot of entire Morrow county, who now wields razors and scissors at the Glerist shop in the Ferris building. His co-worker, Bill Bolderbasen, had bet that the speedy Eddie could walk around the statehouse square in six minutes. So hot had the argument waxed that early Tuesday, with nothing but a heavy breakfast to impel him, Van Horn set out to win the bet. The porter of the shop held the watch and acted as referee and when Eddie came speeding down the quarter stretch and pushed aside the ribbon the watch said 4 minutes flat.

Inquiry at the city engineer's office developed the fact that the statehouse square is 550 feet to the side or 2,640 feet in all, an even half-mile.

When it is realized that the official walking records for a half mile are these: Professional three minutes one-half second, amateurs, three minutes flat, it will be seen that for a walk, Van Horn did some speedy stepping. Perhaps his feat will inspire other walkers to attempt to surpass his record.

SONGS THAT ARE OLD, YET NEW, ARE HEARD TODAY

When Bentley Hall Sings at High
School Assembly.

STUDENTS ALL JOIN IN
ROLICKING CHORUSES

Songs That Live Are Sung with
Delight—Story of America
in Song.

Bentley Hall, singer and entertainer, gave his entertainment, "The Song-Logue of America," the story of America as told in the songs of her people at the Harding High school this morning before the entire student body. Mr. Hall said that the American people do not realize the great wealth of folk songs which still exists in this country and which mean a great deal to the people who sing them. The United States, the melting pot of the world, has received the folk songs and the traditions of nearly all the foreign countries, a great many of which still exist among certain peoples in this country.

Mr. Hall began his program with the Indian songs, his first number being a tribal prayer of the Omaha. Next he gave "Hiawatha's Departure" as given by the Ojibways. Mr. Hall then turned the attention of his audience to the English folk songs still existing in this country and sang a Scotch song called "Edwards," which he found still in use in the mountains in North Carolina, and also an Irish ballad picked up among the mountaineers of Kentucky.

Following this Mr. Hall sang several cowboy songs which breathed the spirit of the frontier days. These were "Home on the Range," "The Dying Cowboy" and "Jesse James." The old negro Southern songs were then taken up and he gave several melodies of true negro origin. In closing his program, Mr. Hall sang "Dixie" and "Old Folks at Home," the students joining in on the choruses.

A Word of Appreciation.

Benefit Shoot Big Success.
Two hundred and eleven dollars will be turned into the child feeding fund as a result of the benefit shoot given by the Richmond Gun Club at their grounds on south Franklin street Tuesday. The prizes for the various events were furnished by Richmond merchants. The Gun Club "furnishes" targets free, paid all expenses and added \$50 to the fund. Forty-five shooters participated, twenty-nine in the regular events and sixteen in the specials for beginners. Many shooters from out of town were present. C. D. Cohn, of Mechanicsburg, was high gun, only letting three targets set away during the entire day.—Richmond Gazette.

MANY ROADS BEYOND REPAIR IN COUNTY

And, They Will Have To Be Rebuilt.

DAMAGE WILL RUN
HIGH INTO THOUSANDS

Condition of Roads as Result of
Open Winter Presents Big
Financial Problem.

Expenditures running high into the thousands will be required to put Marion county's roads into first-class condition as a result of the damage done to the rock and macadam roads by traffic as a result of the mild weather this winter, according to officials who are familiar with road conditions in the county. The majority of the improved roads have gotten beyond the point where repairs will be of value and will have to be practically rebuilt.

During the past few weeks, the mud and bad roads have caused boards of education in the various Marion county school districts considerable trouble in transporting the pupils to the different schools. In some cases it has been necessary to abandon the automobile truck and substitute wagons to take the children to school.

In many instances automobiles and trucks have become stalled in these damaged roads as deep as the hubs on the wheels. It is probable that arrangements will be made to start the work of putting these roads in condition as soon as the spring weather permits.

The condition of the roads presents a knotty financial problem.

WHY DON'T YOU INSURE YOUR CAR?

WHY SHOULD YOU TAKE A CHANCE MR. MAN? ASK PAUL J. TOBIN

Why you shouldn't take a chance, that's all. Let us write an insurance policy that covers any possible damages to your car and also assumes any liability for damages charged against your car. Let our insurance company take the chance and fight the case if necessary. That's what they are in business for.
